

Notice on Postponement of NEPCON China 2022

Dear exhibitors, visitors, and partners,

The COVID-19 pandemic in Shanghai has been complicated and grim since March, currently with strict quarantine and control measures for visitors. During this period, for the safety of the exhibition, we have maintained close communication with all relevant parties and implemented all possible solutions. Upon careful assessment, we regret to inform you that **NEPCON China, hosted by the CCPIT Electronics & Information Industry Sub-council and RX, will be postponed until April 19th to 21st, 2023, and held at the Shanghai World Expo Exhibition & Convention Center.**

We apologize for any inconvenience that the further postponement may cause. We will pay close attention to the COVID-19 situation to maintain prevention and control, as well as make all-out efforts on postponement-related work for NEPCON. We have given top priority to the health and safety of exhibitors, visitors, staff, and partners, and have been committed to delivering business value to suppliers and buyers online. We have facilitated more than 100 matches between suppliers and buyers from March to June 10th, 2022, and will continue to provide superb services for industrial development and exchanges.

NEPCON ASIA 2022 has entered the pre-exhibition preparation stage. The exhibition will take place at the Shenzhen World Exhibition & Convention Center from October 12th to 14th, 2022. Inspired by the innovation philosophy of "cross-border + chip + intelligent manufacturing", it will bring together 1,200 Chinese and overseas enterprises and brands, to exhibit new equipment and advanced technologies in fields such as electronic components, SMT, PCBA, intelligent manufacturing, semiconductor packaging, and testing, from at home and abroad. Several exhibitions will be held concurrently with NEPCON ASIA, with a total exhibition area of 160,000 square meters, to create opportunities in fields such as consumer electronics, home appliances, industrial control, communications, automobile, touch display, new energy, medical devices, and optoelectronics; unleashing the new vitality of Asia's electronic industry. Please follow NEPCON's official WeChat account for updates on the exhibition and the industry.

After going through many hardships, we will stay true to our original aspiration and founding mission! Thank you for your support and encouragement for NEPCON. May the pandemic end swiftly! We hope to meet you safe and sound then!
